102 WEDDELL SEAL

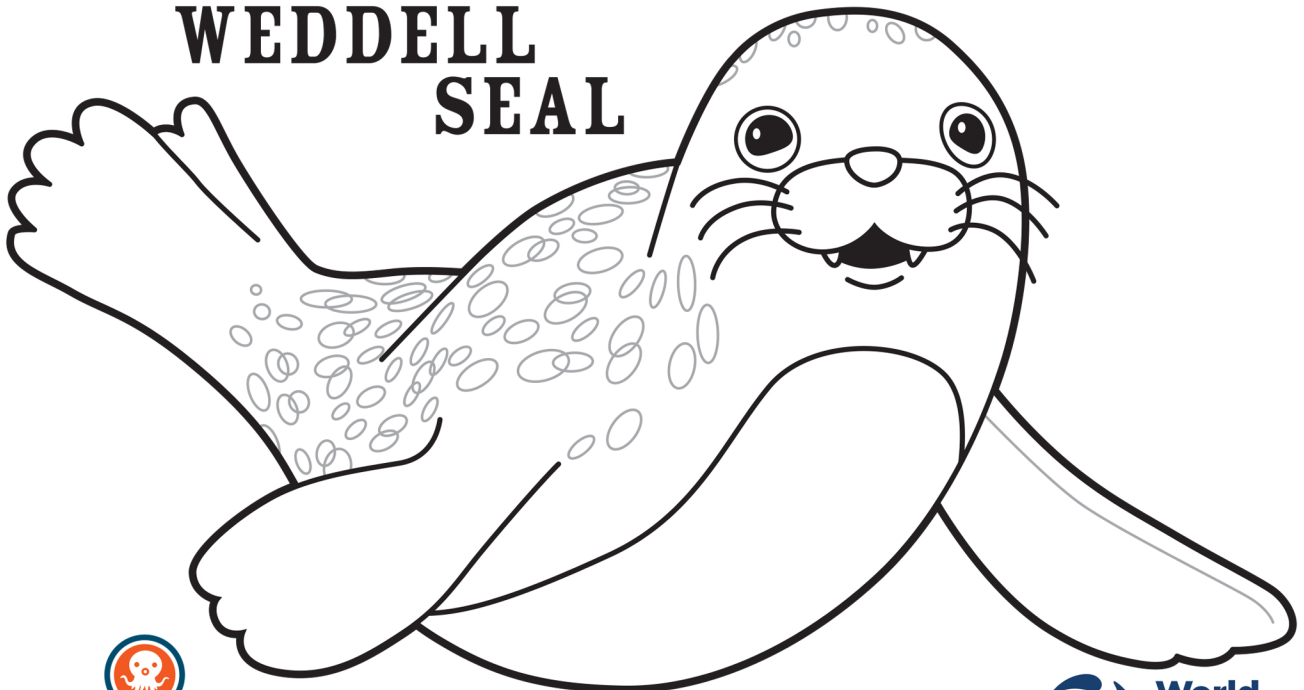

OCTONAUTS

Weddell seals dive and swim under the Antarctic ice shelf to hunt and to avoid predators. They use their teeth to open breathing holes in the ice.

103 SEA TULIP

OCTONAUTS

Sea tulips look like underwater flowers,  
but they're actually a variety of  
sea squirt, an animal.

86 PELICAN

Pelicans have large pouches on their throats which they use to scoop up fish. Like other sea birds, they sometimes mistake bits of floating plastic for food, which can hurt them.
